COTTON SHOWS SOME STRENGTH

Recovers Moderately After Touching New Lows British Labor Situation Big Factor, Causing Hesitancy-Spots Display Signs of Resistance.

extensive. Frost date brings less concern than usual, although if killing frost comes soon there will be low-ering of grades of a considerable por-

ering of grades of a consultation of the crop. The grade so far is much above average, but there is time for much of that which is in the fields to be so lowered as to make it likely that a hig part of it

would not be saved on account of

low price.

According to Hester, inovement into sight for the week was 355,000 bales, compared with 425,000 last year, the amount for the season to date being 2,050,000, against 2,171,000.

Spinners are taking sparingly, only 133,000 bales of American having gone to them during the week which

compared with 262,000 same week a year ago. To date they have taken 1,680,000 bales, compared with 2,-154,000 a year ago. There are vis-

GRAIN MARKETS

CHICAGO, Oct. 23—A big export business of the last few days and the strength in foreign markets today caused December wheat to start strong.

caused December wheat to start strong, showing a gain of 1% to 2½c over last might's close. The advance was met with large offerings, which resulted in immediate sethack, which carried prices below yesterday's finish. After showing %c loss to a gain of 2½c at the start, with December \$2.03½ to \$2.04½ and March \$1.95% to \$1.96½, the break carried prices down rapidly. A reaction then took hold and checked the drop.

Although it cannot be said yet that feedbases. the cotton bulls have much beside for hope, there is no denial of the existence of more optimism as to the situation. Whether it will be lasting or give way later to another outburst spois during the week was not so large as it had been in the South-west, while elsewhere the enlarge-ment was not extensive, due chiefly to the attitude of the producers. Fiof pessimism and disgust time only will determine. Distinct signs of betterment have been noted for sev-eral days, but the off-inflicted punnancial conditions were still largely dominant and much of that which was sold was under duress, as it were, for it has been recognized that the most effective method will be to relieve urgent obligations and then ishment has so completely cowed the average man in the cotton belt that he is disposed to look askance at talk of an upturn. However, nothing would bring so much joy to his pul-sating breast as the movement of get in position to make a real fight for better values. Talk of getting outside help still persists to some extent, but most folks are coming to the conclusion that the South is by no means ruined and that better values back toward cost of producweek was the growing indication of a sold-out market and resistance things are ahead. Talk Acreage Cut Now. 19 cents, and lower for the most active options, which was also accom-

Among the effective arguments used by those who look ahead is that continuation of prices anything like those now ruling will mean a big reduction in acreage next season. At a meeting of Texas bankers in Dallas on Thursday it was the sense of those present that they would withhold financial aid from those who would not cut cotton acreage fully half in the spring. While such an amount might be regarded extreme, especially at the time of planting, it upport and absorption by spinners f some of their needs. Changes for the week in the con-Changes for the week in the contract department were slight, by no means reflecting the alteration of sentiment. In New York the list was from 3 points net to the bad to 50 to the good, while in New Orleans gains ranged from 13 to 40 points. The significance of these slight gains was increased, by the fact that in the spot department quotations for the review period showed fact that in the spot department quo-tations for the review period showed losses ranging from 50 to 150 points, while one point was up 10, middling being as low as 19 cents to as high as 21 cents at the leading centers, One of the chief market influences,

coming as it did on top of the pro-longed inactivity in spot demand and the curtailment of output by mills on both sides of the ocean, was the fact that the British coal miners went

on their strike, after much threat-ening and futile efforts to avoid it. The far-reaching effects of such caused reflection in the value marts be considerable, though the dis-unting process had been extensive Widespread opinion that the struggle would not last long and the exten-siveness of the short interest helped bring a recovery in contracts, al-ough it was interrupted somewhat the ultimatum from the railroad and transport workers in that coun-try, that they would join the strike if mediation was not started at once. The week closed with sentiment apparently leaning to the view that set-tlement of differences was not far hence, for Liverpool spot sales Fri-day were the largest of any day in many weeks, and Manchester ad-

Bottom on Monday.

The downward swing culminated on Monday, when December in New York sold as low as 17.80c, and the entire list off in proportion. The market had reports of rioting in London and a discouraging outlook as to the strike. But next morning came better reports and the recovery of about \$5 the bale was with little effort, for the affair had been oversold. Weather continued favorable in the belt and domestic trade accounts were still without favorable tenor, yet tone of the speculative tenor, yet tone of the speculative market was better. Caution charac-terized trading next day, but when the railroad workers announced their determination to join the coal strikers, values did not drop very much, which aroused fresh confidence in the view that a turn had come. Co-ordinating with this was in-

creasing evidence that the South was getting into an attitude and position to offer more resistance to bearish efforts, helped, perhaps, by some injurious rains in Texas and Oklahoma, the sections whence the bears have been getting their most effective aid in pushing prices downward. These rains were hurting grade and interrupting picking, which increased prospects of cutting down the size of the crop, for it hardly seems probable that much of the low grade part of the crop will be saved, unless there come a marked improvement in prices. It was also helping all directions are small, which means that the potentialities in favor of shat less there come a marked improve-ment in prices. It was also helping to stimulate demand for the better that the potentialities in favor of that side are great, once there is a return to something like normalcy and a grades at a psychological time, for the entire cotton belt has recently acted as if it was getting over the start is made in providing raw ma-stage of senseless fear and abject terial supplies.

LARGE DEFICIT IN

More Hopeful Feeling Regarding British Labor Situation Helps Bring Advance.

Saturday afternoon, Oct. 23.

Higher prices came in the cotton market today chiefly because feeling was more cheerful as to chances of settling British labor troubles. Negotiations was more cheerful as to chances of settling British labor troubles. Negotiations were on and there was increasing belief in the success thereof. This seemed to stimulate confidence among those who were holding the actual, while inquiry for the actual was also more encouraging. The weekly trade reviews did not contain much that was new, but less pessimism seemed to be expressed therein.

Trading was fairly active for the short session and finals were right near the best of the day December in New York touching 21 cents, which is 229 points better recorded earlier in the week. Finals were irregular and 57 to 70 points to the good, while New-Orleans closed firm and \$2 to 73 up. Shorts covered freely, while absorption by trade and spot interests were significant.

Liverpool on Monday should oper 50 to 45 points to the good. In the spot department business was

somewhat larger and quotations wer as a rule higher. Houston sold 6.0; bales and middling was up 75 points to 20.75c. Dallas and Fort Worth also ele 20.75c. Dallas and Fort Worth also elevated quotations 75 points.

In the local market sales were the largest reported for one day in months, 4,300 bales changing hands and quotations were lifted 50 points, middling to 20.50c. In the sales was a line of about 2.500 bales of old cotton, negotiations for which have been on for some days. It was one of the most encouraging developments locally for some days, although the cotton was reported as sold cheap.

this morning and first prices were firm at an advance of 17 to 50 points. The continued demand from Liverpool strengthened a hope that British labor troubles would soon be settled, and there was further local covering on the advance to 20.25c for December and 20.10 for January. The relative easy opening of the New Orleans market was followed by New Orleans market was followed by New Orleans selling kere, however, while there was bearish comment on the week-end reviews of the goods trade and weekly statistics showing small spinners' takings. These features, combined with realizing by recent buyers, checked the upward movement and caused reactions of 20 or 30 points from the best during the early trading.

Realizing sales were readily absorbed on the slight early reactions owing to continued Liverpool buying and covering. The latter became more active and excited later in the norming and stop orders were uncovered sending December up to 21.00c and January to 29.75c or 97 to 107 points net higher on active months. Beachons of 30 or 40 points followed under profit taking with the market closing irregular at a net advance of 40 to 70 points. Reports that Gov. Parker, of Louisiana, had called upon gins to immediately stop operations throughout the state, caused a good deal of comment but was not generally considered an important influence on the advance. Futures clossed irregular at advance of 57 to 70 points.

ing up came on the cetton market tofav and seding out by longs caused reressons of 11 to 25 points before the
trading had gone very far. December
dropped to 18-25c. Fear that the movement to stop giming would make a
very tight situation in the spot department brought in considerable demand,
on which there were full recoveries
and finally an advance which carried
the active months 6 to 16 points over
vesterday's last quotations, December
tasing to 19-50c.

After midnession the market became
strong on the belief that the producmation by Governer Parker Monday
calling upon the ginners of Laustian
to stop ginning would be to by factor
in the autuation and would be followed
by similar action in other states in
the helt. Rumors of tavorable devel
opments in the English labor situation helped the market and in the
last few minutes of the day the tradin
months were sent 84 to 88 points high
or than the close of yesterday, Decemher touching 20-50c.

FROM WALL STREET

Bull Pools Get Busy in Stocks on Better British Strike

NEW YORK, Oct. 23.—Bull pools were active in speculative issues on the stock exchange today, basing their operations largely on advices from London which indicated that measures were under way to prevent an extension of the British industrial crisis. Steels, equipments, rails and other usual leaders were neglected. Shippings oils and utilities were the outstanding features. United Fruit led at an advance of almost 7 points. Houston Oil. Montana Power, Lactede Gas, People's Gas, United Railways preferred, Philadelphia Company, Western Union and Mackay registered gains of 1 to 5 points. Seliing for profits impaired some of this advantage in the final dealings. The closing was firm. Sales approximated 250,000 shares.

Range of prices on New York etock exchange, with previous coosing blds, furnished by Shepard & Gluck, Falls building.

The Fickle Flurries of the Market

do not worry the investor who buys high grade listed stocks and bonds outright and holds them for perma-

The Kriebel Plan of outright buying on convenient payments will
make of you a good investor. It
enables you to control five times as
large a block of securities as you
could control on a cash basis. You
get all dividends while paying. Our magazine, "Investment," will keep you posted on the vital news about the better class of listed securi-ties. Ask us to send it to you free for six months. Dept. 1.

You Can Fairly See 'Em Grow

Writes One of Mississippi's Big Hog Feeders "When You Feed 'Em"

EARLY'S QUICK FAT speeds up pork production far beyond any ordinary Hog Feed. It produces more and better pork per pound of feed consumed because it is a complete, correctly balanced pork-making ration, satisfying every craving of the growing or fattening hog.
